At external venues if required

Delivery method— classroom/ tutorials and practical demonstration. Theory and practical examinations

Benefits:

NIC Electrical Competence for Part P valid for 5 years. Successful participants will be able to self-certify domestic electrical installation work in England and Wales, compliant with the Building Regulations. Potential to register with NICEIC Domestic Installer Scheme.

Corporate Clients

Can receive preferential rates, external venue delivery dependent on course numbers. Corporate clients can also gain access to real time online evaluation tools tailored to company needs.

Overview

This course meets all the needs of the competent person scheme. The emphasis of the qualification is understanding regulations, standards, terminology, together with having the ability to identify unsafe electrical situations and perform electrical test procedures. Knowledge and appreciation of the relevant requirements of other appropriate Building Regulations is also covered during the course. Aimed primarily at existing plumbers, kitchen fitters, loft converters and electricians.

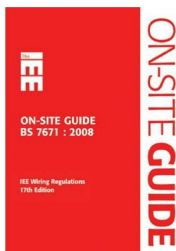

Entry requirements

All applicants to this scheme must meet a number of requirements, in particular be able to demonstrate you have the ability to install, inspect, test and certify your work in accordance with BS 7671 and to comply with the relevant building regulations.

Content:

- Legislation, terminology and first principles
- Pre-work survey
- Maintenance
- Installation
- Special Locations
- Commissioning
- Certification
