Overview

NICEIC Certification's Oil Competency Scheme delivers a certificate of competence which is a requirement for oil technicians who wish to demonstrate their competence and to register with OFTEC or other operators of Competent Person Schemes. The assessments are recognised by OFTEC for registration as an oil firing technician. While NICEIC Certification will inform OFTEC of the award, the receipt of this certificate is not confirmation of OFTEC Registration and individuals seeking registration should contact OFTEC directly.

Entry requirements

- Minimum NVQ level2 or ACS/OFTEC , relevant industry experience

Content

Certification is separated into the areas of competence required for registration and the type of work that is carried out including:

- Installation of Oil Heating (including energy efficiency),
- Commissioning of Oil Heating (pressure jet and vaporising appliances)
- Installation of Oil Storage tanks

**YOU CAN SAVE OVER £250 OFF
